As someone who wishes to enhance my professional profile within the audio industry, I strive to be a stand-out character with ambitions and traits. My hard working, go-getter attitude to tasks is something I possess quite proudly.

I am an open minded and thoughtful, driven by the idea that I will one day be a successful individual within the industry. I am passionate about working with other like-minded individuals inside the audio/visual industry as I believe it will assist me with developing my skills.

## EXPERIENCE

OCTOBER 2019 – OCTOBER 2022

### PRODUCTION ASSISTANT, SCOTBEEF

During my time working as a production assistant, I learned the importance of working efficiently as a team and I was taught how to use my initiative and problem solving skills to find the best way to get a job done.

### AUDIO VISUAL MAINTENANCE ASSISTANT, UHI PERTH

I have recently attained some more hours working directly in the field that I wish to be in. as was designated for my professional development for my Honours year at university, I found myself in contact with the university's head of theatre, Charlie Martin. Alongside Charlie and other staff who were working on projects which required our assistance, I gained a lot of experience learning about what it is like to be working in such a rapidly changing environment.

## EDUCATION

2020 - PRESENT

### BSCH AUDIO ENGINEERING, PERTH UHI

I began the course at the tail end of lockdown in 2020, where I have progressed onto my honours where I am aiming to attain an upper second class honours grade (2.1) or a first class honours grade.

## **SKILLS**

- Out-of-the-box thinking
- Problem solving
- Good teamwork
- Adaptability
- Time Management
- Patience
- Motivation
- Fast learner
- Attention to detail
- Active listening

## **ACTIVITIES**

I have been spending my time around the music industry for most of my life. Having got my first guitar and some lessons from age 10, I was given the encouragement and motivation to prove to myself that the industry was something I was absolutely interested in working within. Having begun attending Perth UHI for my HNC Sound Production over 3 years ago, this has since driven my passion for working around audio as a whole. In my spare time around the house I like to create my own music in Ableton and I sometimes work with other musically minded individuals to create some projects which I can be proud of today.

I am very passionate about some of my other hobbies on top of that. Outside of working with audio I am a very outdoorsy person, having ticked off multiple munros around the country. On top of that, I enjoy playing some games such as chess as I believe that as well as being very enjoyable to me, I find it to be a great mental exercise as it forces me to use my forward thinking skills. I am also a fairly avid cook, as I like to cook for my friends and family when given the opportunity, and I like to experiment with different recipes and enjoy learning how I can adapt them to create a result that I am proud of.
